How to use your NABERS Water rating details

The table below explains how you can use the data in this report for mandatory and voluntary reporting requirements. For each reporting requirement, use the number(s) in the right column to identify the correct data to be used from the first page of this report.

Voluntary scheme and reporting

For EarthCheck certification (1)

EarthCheck is a scientific benchmarking, certification, consulting, and advisory group for the travel and tourism industry. NABERS Water ratings can be used to demonstrate compliance with the relevant water-related indicators of the EarthCheck Certified Standard. For more information contact NABERS or see https://earthcheck.org/.

For Ecotourism Australia certification (1)

Ecotourism Australia's ECO and Sustainable Tourism Certification programs support visitor economy businesses on a pathway to sustainable practices and provide globally recognised certification for tourism operators. NABERS Water ratings can be used to demonstrate compliance with the relevant water-related criteria of both the ECO and Sustainable Tourism Certification programs. For more information contact NABERS or see https://ecotourism.org.au/sustainability/businesses/.

For Green Key Australia certification (1)

Green Key is an eco-certification program for the tourism industry focused on environmental responsibility and sustainable operation. Australian Sustainable Destination Alliance serves as the national operator for the Green Key eco-certification program. NABERS Water ratings can be used to demonstrate compliance with relevant water-related criteria of the Green Key criteria explanatory notes. For more information contact NABERS or see https://austsda.org.au/.
